

# Bag Loader FKT 800

Quick Assistant

Bag Loader FKT 800 in operation.

## Bag Loader FKT 800

### Simple and effective packing

Problems with opening bags and contaminating the neck of your packing bags – WEBOMATIC have the solution to save time and eliminate contamination. Fresh products, like cheese or sausages can be filled quickly and cleanly into the automatically inflated bag with the WEBOMATIC Bag Loader FKT 800.

Due to its enormous packaging capacity the Bag Loader is suitable to be integrated in high capacity packaging lines.

All standard shrink and sealing bags on adhesive tapes can be used with your „quick assistant“ FKT 800. Whenever you need to change the bag size, just lower the front part of the Bag Loader FKT 800 and fix the new tape over the quick regulation unit. Finally the air stream can easily be adjusted to the corresponding bag size.

**With the Bag Loader FKT 800 you are just quicker – and save time and money.**

The airstream channel can easily be taken out of the machine for cleaning.

Easy and quick change of chain guide for new bag size.
